Project Title: Creek Road Bridge Rehabilitation Project

Project Applicant: Town of Fairfax

Project Location (include county): Fairfax, Marin County, California

Project Description:

The purpose of the Project is to retrofit Creek Road Bridge over San Anselmo Creek in order to enhance seismic safety, to prevent catastrophic failure during a Maximum Credible Earthquake, and maintain the structural integrity of the bridge to protect public safety. During construction, the bridge would be closed and traffic would be detoured through other access routes. Access to the creek would be needed for construction work. The footprint of the bridge and approach roadways would not change due to the Project and no new rights-of-way are needed. Vegetation restoration work would be implemented prior to completion of construction work in all disturbed areas.

This is to advise that the Town of Fairfax has approved the above
(☒ Lead Agency or ☐ Responsible Agency)

described project on July 1, 2026 and has made the following determinations regarding the above
(date)
described project.

1. The project [☐ will ☒ will not] have a significant effect on the environment.
2. ☐ An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA.
☒ A Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
