BHBH Eligibility Definitions

The Behavioral Health Bridge Housing (BHBH) Program provides funding to operate bridge housing settings to address the immediate and sustainable housing needs of people experiencing homelessness who have serious behavioral health conditions, including a serious mental illness (SMI) and/or substance use disorder (SUD).

To be eligible for a BHBH Program-funded project, an individual must meet one of the following criteria:

1. The individual has one or more of the following:

- a. Significant impairment, where “impairment” is defined as distress, disability, or dysfunction in social, occupational, or other important activities, including education and family relationships
- b. A reasonable probability of significant deterioration in an important area of life functioning
- c. A need for SMHS, regardless of presence of impairment (for individuals under age 21)

AND

The individual’s condition, as defined in a, b, and/or c, is due to either of the following:

- a. A diagnosed mental and/or substance-related or addictive disorder, according to the criteria of the current editions of the Diagnostic and Statistical Manual of Mental Disorders (DSM) and the International Statistical Classification of Diseases and Related Health Problems (ICD)
- b. A suspected mental and/or substance-related or addictive disorder that has not yet been diagnosed

OR

2. The individual has at least one of the following:

- a. **At least one diagnosis from the current edition of the DSM for Substance-Related and Addictive Disorders**, with the exception of Tobacco-Related Disorders and Non-Substance-Related Disorders
- b. At least one suspected diagnosis from the current edition of the DSM for Substance-Related and Addictive Disorders, with the exception of Tobacco-Related Disorders and Non-Substance-Related Disorders

OR

3. The individual is a CARE Program participant, regardless of whether they meet the criteria in paragraph (1) or (2), above.

For purposes of the BHBH Program, the definition of “homeless” is:

An individual or family experiencing homelessness is defined as any of the following:

- An individual or family that lacks adequate nighttime residence
- An individual or family with a primary residence that is a public or private place not designed for or ordinarily used for habitation
- An individual or family living in a shelter
- An individual exiting an institution (including incarceration) into homelessness
- An individual or family who will imminently lose housing in next 30 days
- Unaccompanied youth and homeless families and children and youth defined as homeless under other federal statutes
- Individuals fleeing intimate partner violence

Notes on this definition:

This definition is based on the HUD definition of “homeless,” with the following modifications:

- If exiting an institution, individuals are considered homeless if they were experiencing homelessness immediately prior to entering that institutional stay, regardless of the length of the institutionalization.
- The time frame for an individual or family that will imminently lose housing has been extended from 14 days (HUD definition) to 30 days.
