

## **MARIN COUNTY RESOURCE GUIDE (MCRG) IS NOW MORE ACCESSIBLE WITH GRACE, A TELEPHONE ENABLED, EMPATHETIC AI AGENT!**

**Thanks to our enthusiastic and intrepid Community member, Karen Hawkey, we now have the ability to interact with the MCRG on the phone!**

**Have a question that is in the MCRG, but you don't know exactly where the answer is located? Need an answer 24/7/365?**

**Step 1: Call: [775-306-3602](tel:775-306-3602)**

**Step 2: Start talking and ask your questions.**

**Grace, an AI Robot Tool will gladly answer ANY questions you have, if the answer is in the resource guide. If not, she will refer you to the main number listed in the MCRG. You can talk to her and ask for recommendations.**

**She can take an unlimited number of calls at one time.**

**She speaks 3 different languages; English, Spanish, and Vietnamese.**

**Remember, this is a volunteer led project that is in an early, experimental stage. All feedback from your interactions, both good and bad, should be directed to Karen Hawkey: [415 845-0574](tel:415-845-0574), or [kmhawkey1@gmail.com](mailto:kmhawkey1@gmail.com).**

**The example for this concept is [qualitytime.ai](https://qualitytime.ai). Feel free to try this website yourself! Quality Time AI is an emerging project proactively tracking behavioral signals and supporting cognitive health in older adults.**

**Marin county ought to take a leadership role in adding value to our Older Adults by using cutting edge technologies to add information, ease of use and information to our communities!**
