## I. Executive Summary

MED-Project LLC (“MED-Project”) operates a Product Stewardship Plan for Unwanted Medicine from Households (“Plan”) in Marin County (the “County”) under the Marin County, California – Code of Ordinances, Title 7 – Health and Sanitation, Chapter 7.90 – Marin County Safe Drug Disposal Ordinance (“Ordinance”). The Marin County Environmental Health Services Division of the Community Development Agency (the “Department”) approved MED-Project’s revised Plan, dated December 19, 2023, revised May 14, 2024, on August 7, 2024 (“Approved Plan”). This 2024 Marin County Annual Report (“Report”) describes MED-Project’s activities between January 1, 2024, and December 31, 2024 (“Reporting Period”). Between January 1, 2024 and August 7, 2024, MED-Project operated under the plan dated March 14, 2020, approved by the Department on April 29, 2021 (the “Previously Approved Plan”). Between August 8, 2024, and December 31, 2024, MED-Project operated under the Approved Plan, dated December 19, 2023, revised May 14, 2024, and approved by the Department on August 7, 2024. Information included in this Annual Report occurred during the Reporting Period unless otherwise stated. All capitalized terminology not defined in this summary is derived from the Approved Plan.

MED-Project has been operating in the County since 2017 and has served County residents by collecting over 102,000 pounds of Unwanted Medicine. MED-Project’s outreach and education efforts have generated over 16 million impressions to County residents, stemming from its comprehensive education and outreach program.

### A. Notifications in the Reporting Period

MED-Project submitted a number of change requests and notices. The change requests and notices included:

- MED-Project submitted two non-substantive change notifications, notifying the Department of the deactivation of Kiosk Drop-Off Sites.
- MED-Project submitted a notification on April 12, 2024, notifying the Department of a change to the liner supplier.
- MED-Project submitted a non-substantive change notification on December 16, 2024, notifying the Department of a change to the Call Center IVR script.

### B. Operations Overview

Priority was given to operating Kiosk Drop-Off Sites throughout the County, and performing outreach to eligible pharmacies, hospitals, and clinics with on-site pharmacies, and Law Enforcement Agencies (“LEAs”). The Program collected and disposed of Unwanted Medicine from 27 Kiosk Drop-Off Sites.

Kiosks were previously installed in pharmacies that met all local, state, and federal requirements and that executed agreements with MED-Project. In addition, promotional materials, including signage and/or brochures, were available to existing Kiosk Drop-Off Sites via an online system, the MED-Project Website and the Call Center.

MED-Project provided disposal instructions to select Kiosk Drop-Off Sites, provided Mail-Back Services to County residents, and continues to communicate with Kiosk Drop-Off Site Hosts to distribute outreach materials upon request, review procedures as needed, and improve overall Program design.

As outlined in the Approved Plan, the ultimate goal of the Program is to provide County residents with convenient, safe, and accessible methods to dispose of Unwanted Medicine.

The following Sections of the Report respond to specific reporting requirements in Ordinance Section 7.90.110(A). Each section of the Report restates the corresponding Ordinance requirements and provides the required information. All figures are rounded to the nearest tenth place.

## VII. Educational Efforts and Public Outreach

**Ordinance Sec. 7.90.110(A)(9):** *“A description of the public education, outreach and evaluation activities implemented during the reporting period.”*

### A. Public Education Activities

MED-Project provided disposal instructions for Kiosk Drop-Off Sites and Mail-Back Services offered through the Previously Approved Plan and the Approved Plan. In addition, MED-Project maintained the MED-Project Website and Call Center to provide information pertaining to MED-Project’s available disposal options and public outreach and education materials (e.g., posters and brochures).

The MED-Project Website, Call Center, and printed public outreach and education materials were available in the Specified Languages (English and Spanish). MED-Project updated the color scheme and imagery in the brochures and other creative assets used to educate County residents and promote the Program. The updated creative assets included clear, inclusive images, designed to reinforce the messaging. MED-Project’s Website, including digital educational materials, can be translated into more than 100 languages via a translation tool.

The MED-Project Website and Call Center provide information to help County residents locate Kiosk Drop-Off Sites. The MED-Project Website and Call Center also accepted requests for Mail-Back Packages from County residents.

MED-Project continued to coordinate with the other approved Plan Operator to maintain a neutral website that is a single source of promotion for County residents to access information about the safe disposal of Unwanted Medicine in the County. The neutral website features information about disposal options for Unwanted Medicine, including an interactive map with locations where County residents can access a Kiosk Drop-Off Site at a convenient location or how to order Mail-Back Packages.

MED-Project Website pages are provided in Appendix F. See Appendix G for examples of promotional materials, such as brochures or posters.

## B. Outreach Activities

To promote the Program, MED-Project provided digital display, social media, and online video media campaigns; provided information through the MED-Project Website; posted information on social media sites; and sent broadcast emails. Additionally, outreach materials (brochures and posters) were available to Kiosk Drop-Off Sites via an online system, the MED-Project Website and Call Center. As noted in the Approved Plan, promotional materials are provided to interested parties upon request.

MED-Project broadcasted a Public Service Announcement (“PSA”) animation directed at County residents through social media sites, digital media, and online video platforms.

A list of social media and broadcast email outreach promotion activities is provided in Appendix H. The reach percentage and frequency for each media activity is provided in the Multimedia Outreach Summary detailed in Appendix I.

## C. Evaluation Activities

Consistent with Ordinance Section 7.90.100(A)(4), MED-Project conducts biennial surveys. A biennial survey was not scheduled to be performed in 2024.

MED-Project continued to evaluate media and public outreach in order to identify and make adjustments to the Program. Additionally, MED-Project revised communications materials based on changes to the Approved Plan. Revisions and adjustments made during the Reporting Period are outlined in Section IX.B.

## VIII. Packaging Recycling

***Ordinance Sec. 7.90.110(A)(10): “A description of how collected packaging was recycled to the extent feasible, including the recycling facility or facilities used.”***

As described in the Approved Plan, while drug packaging is expected to constitute a significant amount of the waste incinerated under the Program, MED-Project has concluded that separation of inner and/or outer packaging from Unwanted Medicine and/or recycling of packaging would raise three significant concerns:

1. Separating and recycling drug packaging could result in the disclosure of confidential patient information appearing on prescription drug packaging;
2. Separating and recycling drug packaging could increase the potential for releases and leakage of Unwanted Medicine; and

3. Separating and recycling drug packaging could increase diversion risk by adding additional steps to the collection process and, because drug packaging is often used in drug counterfeiting, the drug packaging could be a diversion target itself.

For these reasons, the Program does not provide for the separation and recycling of packaging from Unwanted Medicine.

MED-Project education and outreach materials instruct County residents to return Unwanted Medicine at a Kiosk Drop-Off Site, via Mail-Back Services, or at Take-Back Events, in the original containers or in sealed bags. These materials encourage County residents who transfer their Unwanted Medicine in sealed bags to recycle all remaining packaging.

## IX. Program Goals

***Ordinance Sec. 7.90.110(A)(11): “A summary of the Stewardship Plan’s goals, the degree of success in meeting those goals in the past year, and, if any goals have not been met, what effort will be made to achieve the goals in the next year.”***

### A. Collection Goals

MED-Project operated under the Previously Approved Plan, between January 1, 2024 and August 7, 2024, and performed against the following long-term collection goals:

- Collect Approximately 12,000 pounds of Unwanted Medicine through Kiosk Drop-Off Sites, Take-Back Events, and Mail-Back Services
- Increase reliance on established Kiosk Drop-Off Sites, and limited to no amount of collection through Take-Back Events and/or Mail-Back Distribution Locations.

MED-Project exceeded the 2018 collection goal during the Reporting Period. Specific details on Unwanted Medicine collection through Kiosk Drop-Off Sites is available in Section III: Collection Method and Weights, of this Report. MED-Project relied on Kiosk Drop-Off Sites and did not conduct Take-Back Events or operate Mail-Back Distribution Locations in the County.

MED-Project operated under the Approved Plan, between August 8, 2024, and December 31, 2024, and performed against the following short-term collection goal:

- Maintain the service convenience requirement through established Kiosk Drop-Off Sites.

MED-Project met the service convenience goal in Ordinance Section 7.90.080(B)(1) through the established 27 Kiosk Drop-Off Sites as provided in Appendix B: Kiosk Drop-

Off Sites. Figure 1 provides a visual representation of how MED-Project met the service convenience goal through established Kiosk Drop-Off Sites.

## **B. Public Outreach and Education Goals**

MED-Project operated under the Previously Approved Plan, from January 1, 2024 and August 7, 2024, and performed against the following long-term education and public outreach goals:

- MED-Project may revise and/or add communications materials based on changes to the Plan.
- MED-Project will evaluate media and public outreach as well as collect feedback by survey in order to make adjustments and improvements to the Program. The review will measure percent awareness of the Stewardship Plans, assess to what extent Kiosk Drop-Off Sites and other collection methods are convenient and easy to use, and assess knowledge and attitudes about risks of abuse, poisonings and overdoses from prescription and nonprescription medicines used in the home. Results of the review will be published on the MED-Project Website established under Section XI.D.2 of the Approved Plan.

MED-Project met the Previously Approved Plan long-term goals as follows:

- Adjusted outreach activities to focus on digital media platforms, enabling broader and more targeted outreach to County residents. MED-Project used digital display, online video, and social media channels.
- Updated the color scheme and imagery in brochures and other creative assets used to educate County residents and promote the Program. The updated creative assets included clear, inclusive images, designed to reinforce the messaging and make materials easier to understand, allowing County residents more efficient access to disposal options for Unwanted Medicines.

MED-Project operated under the Approved Plan, between August 8, 2024, and December 31, 2024, and performed against the following short-term education and public outreach goals:

- Maintain Mail-Back Services.
- Maintain Education and Outreach materials.
- Maintain Call Center.
- Maintain MED-Project Website.

MED-Project is currently meeting the Approved Plan goals by maintaining Mail-Back Services, education and outreach materials, the Call Center and the MED-Project Website.

## C. Collector Outreach

MED-Project operated under the Previously Approved Plan, and performed against the following long-term collector outreach goal:

- Communicate with pharmacies and LEAs and to evaluate Kiosk Drop-Off Sites against the service convenience requirement.

MED-Project continued collector outreach by issuing letters to potential Kiosk Drop-Off Sites on June 10, 2024.

## X. Program Costs

***Ordinance Sec. 7.90.110(A)(12): “The total expenditures of the Stewardship Plan during the reporting period.”***

The total Program cost for the Reporting Period was \$212,830.26.

## Safe Storage Information

It is important to take medication as prescribed by your health care provider and as indicated on the label or packaging.

Always be sure to store medicine securely to prevent accidental ingestion or misuse by others, especially children. If you have expired or unwanted household medication, proper storage and disposal are easy.

To protect your family, pets, and community, follow these instructions for secure storage and safe disposal.

### Use as Directed

Use medication as directed. If there are any specific instructions on the label, package, or package insert, please follow those. If you have any questions, ask your healthcare providers.

### Store Securely

Follow storage instructions as provided on medicine labels and on the information accompanying medicine. Keep medication in a secure location safely away from people or pets that might come in contact with them.

### Dispose Safely

Check your medicine cabinet and remove all expired and unwanted medication. If you do not know if a drug is still safe, check with your pharmacist. Count medication to keep track of amounts. Drop off or mail back expired or unwanted medications for safe disposal.

Please separate and remove any items and medication that are not accepted before disposing.

Do not place medicine in the trash or recycling and never flush them down the sink or toilet.

To protect your privacy, patients are reminded to remove all personally identifiable information on medication labels or packaging before disposing of unwanted medicine.
