I. BACKGROUND

A. County of Marin Department of Health and Human Services

Marin County is located in the San Francisco Bay Area, immediately north of the Golden Gate Bridge. Covering 520 square miles, the County is home to approximately 262,321 residents. Most residents live in urban areas along the Highway 101 corridor within 11 incorporated cities and towns, while rural communities are primarily located in West Marin.

Marin County has one of the highest median household incomes among California's 58 counties. According to the [2022 County Health Rankings & Roadmaps](#) report by the University of Wisconsin and the Robert Wood Johnson Foundation, Marin ranks among the healthiest counties in the state, scoring highly in areas such as quality of life, clinical care, and social and economic factors. At the same time, the [Race Counts](#) report identifies Marin as having some of the largest racial disparities in California across health, housing, income, and education.

The Department of Health and Human Services (HHS) is committed to promoting and protecting the health, well-being, self-sufficiency, and safety of all Marin County residents. HHS plays a critical role in providing safety net services, including those for individuals who are uninsured, enrolled in Medi-Cal or Medicare, or in need of crisis services.

The [2025–2028 HHS Strategic Plan](#), Future Forward: Redefining Health and Wellness in Marin County, outlines key priorities and commitments to guide the department's work. The plan emphasizes:

- Using data to identify and address disparities
- Engaging communities in shaping solutions
- Supporting staff and partners in delivering culturally responsive services
- Collaborating across sectors to reduce barriers and promote equity-driven change

These commitments are organized around five strategic priorities:

1. **Advance Racial Equity** – Lead with race to address and reduce systemic disparities
2. **Improve Community Conditions and Services** – Expand access to inclusive, place-based services
3. **Foster Community Partnerships** – Strengthen collaboration and trust with community organizations
4. **Optimize Workforce** – Build and support a diverse, resilient HHS workforce
5. **Boost Data Collection and Analysis** – Leverage data to support equity and continuous improvement

This strategic plan reflects both the department's ongoing efforts and the input of community members, staff, and partners. It builds on prior achievements while setting a course for equitable and effective health and human services delivery throughout Marin County.

B. Behavioral Health Services Act (BHSA)

In March 2024, California voters approved Proposition 1 reforming the Mental Health Services Act of 2004 into the Behavioral Health Services Act (BHSA). The BHSA prioritizes services for people with the most significant mental health needs while adding the treatment of substance use disorders, expanding housing interventions, and enhancing accountability at the state and local levels.

The BHSA has three components: Behavioral Health Services and Supports, Full-Service Partnerships, and Housing Interventions. Marin's BHSA Integrated Plan FY2026/27 – FY2028/29 can be found here: MarinBHRS.org/MHSA

BHSA Goals:

- Reaching and serving high need priority populations
- Increasing access to substance use disorder services, housing interventions, and evidence-based and community-defined practices, and building the behavioral health workforce
- Focusing on outcomes, transparency, accountability, and equity

All BHSA-funded contractors must comply with:

- All program requirements applicable to the contractor's BHSA-funded services
- [BHSA fiscal policies](#) on Medi-Cal participation and seeking reimbursement from Medi-Cal and other payers (if applicable to the service)
 - Securing Medi-Cal Payment
 - Participate in the County's Medi-Cal Behavioral Health Delivery System (BHDS)
 - Check for and support Medi-Cal enrollment
 - Consistently Bill Medi-Cal BHDS
 - Securing Payment from Commercial Health Insurance
 - Check commercial health plan insurance status
 - Consistently bill commercial insurance
 - Report complaints about commercial health plan conduct
- BHRS and BHSA contractor standards including meeting minimum provider qualifications, nondiscrimination requirements, and providing culturally competent services
- Marin County Behavioral Health and Recovery Services (BHRS) BHSA contractor monitoring activities, including annual compliance monitoring and triennial onsite monitoring
- Any requests for records, information, or onsite access by Marin County, DHCS or their designees for purposes of BHSA oversight. (In general, DHCS expects counties to monitor BHSA contractors, while DHCS monitors counties. However, DHCS reserves the right to directly monitor BHSA contractors as needed.)

When preparing a proposal in response to this request, please:

- Carefully read the entire RFP document before you start and make sure that all procedures and requirements of the RFP are accurately followed and addressed.
- Review answers to questions posted by proposers (Pre-Submittal Conference and/or questions and answers from website), as noticed in this document.
- Carefully review the entire proposal prior to submittal and use the checklist provided in this RFP to make sure everything has been completed as instructed.
- Submit a complete proposal by the required deadline.

II. PROJECT DESCRIPTION AND EXPECTATIONS**A. Project Period**

The contract award will be made on a competitive basis. The anticipated contract period will be one year from July 1, 2026, to June 20, 2027, but may be extended an additional four years in one year increments with good performance relative to contract objectives. The County reserves the right to: increase or decrease the contract amount, fund the proposed service in whole or in part, and terminate or extend the program/contract based on funding availability.

B. Available Funding

One contract will be awarded with two separate designated funding amounts for 1) individual and group specialty Mental Health Services and 2) Early Intervention Drop-in Program.

Individual and Group Specialty Mental Health services will be reimbursed on a Fee-For-Service basis (documented through SmartCare, BHRS' Electronic Health Record), with a starting contract up to maximum amount of **\$500,000** for the first year. BHRS may increase this amount if billing is on pace to exceed this contract maximum. Medi-Cal billable Peer Support Services will be paid at a Fee-For-Service rate of \$67.00 per 15-minute unit of direct service time (Service Code H0038), \$268 per hour. Medi-Cal billable Behavioral Health prevention education services will be paid at a rate of \$14.89 per eligible participant per 15-minute unit of direct service time (Service Code H0025). Services claimed must be documented in SmartCare and meet Medi-Cal Specialty Mental Health documentation standards in order to be paid. Final payment is made based on Medi-Cal approved claims.

Early Intervention funding will be reimbursed as a bundled drop-in Day-Rate tiered based upon number of daily participants. The program must operate for at least 6 hours to be eligible for the Drop-In Day Rate. A monthly calendar and a list of daily attendees will be required reporting to the contract manager to track program and participant engagement. An estimated **\$530,000** will be available for drop-in services.

Bundled drop-in day rate breakdown:

Day Rate for 5-14 participants: \$1,500

Day Rate for 15-29 participants: \$1,700

Day Rate for 30+ participants: \$1,850

C. Target Population

Adults (18 and over) in Marin County experiencing early or ongoing mental health challenges. Services will be available to both individuals eligible for BHSA Early Intervention services and Medi-Cal beneficiaries who meet medical necessity criteria for Specialty Mental Health peer support services. This includes thoughtful inclusion of community members who along with serious mental illness are also experiencing (or have a history of) co-occurring substance use disorders, homelessness, trauma, and other challenges. The target population also includes a focus on outreach and engagement of people from underserved populations such as the Latino, African American, and LGBTQ+ communities.

D. Project Description

This RFP includes two components, 1) a Peer-Run, recovery-oriented, Early Intervention Drop-In program in San Rafael and; 2) a Fee-For-Service Medi-Cal billable Peer Support Services.

The drop-in program should be welcoming and have a low barrier to entry. Utilizing evidence-based or community-defined practices, this will be a place both for people who are experiencing early or emerging behavioral health challenges, those who are reluctant to engage in traditional mental health treatment, and for those looking for support in maintaining their recovery. This program should promote racial equity, be trauma-informed, and focus on resilience, empowerment, and autonomy. Wellness programming must be available in both English and Spanish. In addition, this program may offer culturally specific or alternative healing practices as well. WIC 5840(a)(1) defines Early intervention as those designed to prevent mental illnesses and substance use disorders from becoming severe and disabling. The focus is on reducing the likelihood of certain adverse outcomes such as suicide and self-harm, incarcerations, school suspension, expulsion, referral to an alternative or community school, failure or dropout, unemployment, prolonged suffering, homelessness, overdose, Mental illness in children and youth from social, emotional, developmental, and behavioral needs in early childhood, or removal of children from their homes.

The Drop-In Center is intended as a place where community members can socialize, learn new skills, join self-help support groups and advocacy groups, and enjoy recreational activities. This program will offer a variety of recovery-oriented programs including recovery-oriented groups such as WRAP (Wellness Recovery Action Plan), peer training, and peer education.

For the Fee-For-Service Medi-Cal billable Peer Support, contractor will be required to obtain Peer Certification and fulfill required documentation standards as required by the State and County within the County's SmartCare Electronic Health Record system (utilized procedure code H0025/H0038). Medi-Cal Peer Support Services are culturally competent, strength-based services delivered by certified Peer Support Specialists that promote recovery, resiliency, and self-advocacy through structured coaching, engagement, skill building, and therapeutic activities based on a member's approved plan of care.

Key components of Specialty Mental Health Peer Support include:

- Recovery- and resilience-focused — builds on individual strengths and personal goals.
- Culturally competent — delivered in a way that respects the member's cultural context.
- Structured activities — includes coaching and engagement focused on recovery goals.
- Supportive and preventive — designed to prevent relapse and facilitate community integration.
- Based on an approved plan of care (i.e., tied to individualized goals).

Peer support services may be provided:

- To the member directly,
- To the member along with significant support persons (e.g., family, caregivers),
- In clinical or non-clinical settings.

The awardee is required to provide training and weekly supervision of the Peer Support Specialists. A Peer Support Specialist Supervisor must complete a DHCS-approved peer support supervisory training and meet **at least one** of the below qualifications:

1. Have a Medi-Cal Peer Support Specialist Certification Program certification and two years of experience working in the behavioral health system; **OR**
2. Have worked as a non-peer behavioral health professional (including registered and certified SUD counselors) in the behavioral health system for a minimum of two years; **OR**
3. Have a high school diploma or GED and four years of behavioral health direct service experience that may include peer support services.

Intended Outcomes, Goals, or Objectives:

For all Peer-Run programs, the intended outcomes include:

- Increased participant feelings of connection, recovery, and wellness
- Decreased participant use of crisis services
- Increased racial equity in program utilization, outcomes, and satisfaction

The awardees will be asked to measure and analyze outcomes using standardized instruments (*exact tools subject to change with discussion with selected partner*) and include a means for the disaggregation of outcomes by race/ethnicity. The awardee will be asked to report disaggregated outcomes and provide a work plan in their Annual Report to address any disparities uncovered. The Proposed tools include:

- 1) **Questionnaire about the Process of Recovery (QPR-15):** Version 2.0 (Law, Neil, Dunn, & Morrison, 2014). This 15-item self-report jointly created by researchers and consumers that asks consumers to rate how strongly they agree or disagree with 15 statements related to their recovery process. This tool would be administered program-wide every six months

- 2) **A standardized Satisfaction and Impact Survey** will be administered annually, to quantify:
- Quality and quantity of members' participation with the program.
 - Self-reported impact that participation is having on members' physical and mental health.
 - Self-reported use of crisis services.
 - Members' satisfaction with various aspects of the program.
 - Suggestions for improving the program.

E. Reporting and Performance Requirements

- Monthly invoices
- Monthly list of insurance screenings and activities to support enrollment in Medi-Cal
- Annual Report and evaluation to include total clients served, appropriate demographic and outcome data, any changes to the program, a summary of the reasons for changes, a description of whether program objectives were met, additional data as relevant to regulations, program, or County request
- Names of staff under the BHSA Program, the fluent languages they speak, and any cultural responsiveness training they have had annually
- Quarterly Meetings and Site Visits
- Mid-Year Reports to show progress on outcomes and objectives
- Client and caregiver satisfaction and outcome surveys annually
- Contractors may also be asked to provide service level data even if the service is not Medi-Cal billable in alignment with DHCS requests and policies

C. Contact between Applicant and County

- (1) **County staff contact:** During the period from issuance of this RFP and the award of the contract to a successful applicant, contact regarding the specific subject of this RFP between potential or actual applicant and County staff is restricted under the terms of this section. Except as otherwise expressly authorized in this RFP, neither applicant nor County staff shall discuss, question or answer questions, or provide or solicit information, opinion, interpretation, or advocate or lobby regarding this RFP. A documented instance of such contact by an actual or potential applicant shall be grounds for disqualification from the process. County staff shall be defined as any County employees, agents or contractors involved in or connected with this RFP process.
- (2) **Questions regarding the RFP:** To maintain a fair and impartial process, all questions regarding this RFP must be submitted in writing via the County's website and contain a contact name and address. All questions and responses will be available on the County's website on or before March 24, 2026. No telephone consultation will be provided. **Questions must be submitted via email to Procurement@MarinCounty.Gov or via BidExpress.**

VII. PROPOSAL REVIEW AND SELECTION PROCESS

A. Proposal Review and Selection

HHS staff will conduct an initial technical review to ensure that the format requirements outlined in this RFP have been fulfilled. If any of the material format or substantive requirements is missing or incorrect, the proposal may be disqualified.

All proposals that pass the initial technical review will be submitted to a selection committee that shall evaluate and rank the proposals. The committee will be comprised of parties knowledgeable about the services sought by this RFP from diverse backgrounds, **including persons with lived experience from the target population of this RFP**, representatives from other county departments, representatives from local advisory boards or community based organizations, and/or any other individuals that HHS deems capable and appropriate for the selection of potential providers. The committee shall not include any potential contractors, and no committee member may apply or assist others in applying for this contract.

The purpose of the evaluation is to determine which applicants demonstrate the skills, expertise and experience to successfully perform the tasks specified in the RFP. Each committee member will read and score each proposal using a standardized scoring instrument. The scoring instrument will reflect the requirements of the RFP. A copy of the scoring instrument that will be used can be found in Attachment C. The County reserves the right to seek clarifying or additional information from applicants, potentially including site visits or agency interviews.

The committee will make an award recommendation to the Director of Behavioral Health and Recovery Services or the Director of Health and Human Services, or designee, who will make the final recommendation to the Marin County Board of Supervisors or County Administrator.

Prior to making an award, the County may choose to conduct interviews with applicants. The purpose of the interviews would be to ask follow-up questions that may arise from the review committee and collect any additional information not gleaned from the Proposals. The County may also request additional information necessary to determine the applicant's financial stability, ability to perform on schedule or willingness to incorporate additional features in the proposal, and any other relevant information necessary to make the award.

Once a decision is made, a Notice of Intent to Award will be emailed to all applicants evaluated by the committee.

B. Protest Procedure

Within five calendar days of the issuance of a notice of intent to award the contract, any Applicant that has submitted a proposal may submit a written notice of protest. The notice of protest must include a written statement specifying in detail each and every ground asserted for the protest. The protest must be signed by an individual authorized to represent the Applicant, and must cite the law, rule, local ordinance, procedure or RFP provision on which the protest is based. In addition, the Applicant must specify facts and evidence sufficient for the County to determine the validity of the protest.

Delivery of Protest:

All protests must be submitted in writing and received five days post notice of non-acceptance by email to Procurement@MarinCounty.Gov or at the following address:

Marin County Department of Health and Human Services,
C/O: David Lawlor
3501 Civic Center Drive #304
San Rafael, CA 94903

If a protest is mailed via U.S. Mail, it must be postmarked within 5 calendar days of the notice issuance. The Applicant bears the risk of non-delivery.

The protest will be forwarded, through the appropriate administrative channels, to the Director of the Marin County Department of Health and Human Services, or designee. The Department Director or designee may review the original RFP Proposal(s), the public notice, the Request for Proposal document, and the scoring instruments of the Proposal review committee, and any other document deemed appropriate. The Department Director or designee will provide a written response to the protest, including any action that will be taken, if applicable. The decision of the Department Director or designee shall be final.

C. Post Award

Once the Notice of Intent to Award has been issued, the provider selected will be contacted to execute the County's Standard Professional Services Contract. At that time, the selected provider and the County may discuss adjustments to the budget and the scope of work. **No other provisions of the County's Standard Professional Services Contract will be negotiated.** Refer to Attachment D for a copy of the County's Standard Professional Services Contract.

The applicant grantee awarded a contract under this proposal process will be required to adhere to the reporting requirements set forth by HHS, as well as to provide any additional data needed to satisfy other County, state, or federal reporting requirements.

For the duration of the contract period, contract renewals are contingent upon the demonstration of progress in

achieving measurable results to the County's satisfaction and compliance with all contract requirements, as well as the continued availability of contract project funding.

Award of a contract under this process does not preclude the County from conducting another RFP process for these services at a future date.

VII. **Reporting Disclosures of PHI and Security Incidents.**

- a. The BA will report to CE in writing any use or disclosure of PHI not provided for by this BAA of which it becomes aware. This report shall be made to the HHS Contract Manager, the HHS Compliance Privacy Officer, and the HHS Information Security Officer. shall provide grounds for immediate termination of the Contract, notwithstanding any contrary provision in the Contract or this BAA. [45 C.F.R. §164.504(e)(2)(iii)].

- c. **Judicial or Administrative Proceedings.** The CE may terminate the Contract, effective immediately, if (i) BA is named as a defendant in a criminal proceeding for a violation of HIPAA, the HITECH Act, HIPAA Regulations, or other security or privacy laws or (ii) there is a finding or stipulation that the BA has violated any standard or requirement of HIPAA, the HITECH Act, the HIPAA Regulations or other security or privacy laws in any administrative or civil proceeding in which the BA has been joined.

This obligation includes PHI used for compliance with NCQA standards and HEDIS reporting. If return or destruction is not feasible, the BA shall provide the CE with a written explanation of the reasons why return or destruction is not feasible. The BA shall extend the protections of Section 2 of this BAA to retained PHI, including compliance with NCQA standards for data handling and retention, and limit any further use or disclosure to those purposes that make the return or destruction of such PHI infeasible. - a. This BAA may not be modified, nor will any provision be waived or amended, except in writing duly signed by authorized representatives of the Parties. A waiver concerning one event shall not be construed as continuing, or as a bar to or waiver of any right or remedy as to subsequent events.

XXIV. HITECH Act Compliance.

- a. The Parties acknowledge that the HITECH Act includes significant changes to the Privacy Rule and the Security Rule. The HITECH Act sets forth provisions that significantly change the requirements for BAs and the agreements between BAs and CEs under HIPAA and these changes may be further clarified in forthcoming regulations and guidance. Each Party agrees to comply with the applicable provisions of the HITECH Act and any HHS regulations issued with respect to the HITECH Act. The Parties also agree to negotiate in good faith to modify this BAA as reasonably necessary to comply with the HITECH Act and its regulations as they become effective.
