SUBJECT: Questions and Answers for Request for Proposals (RFP) – HHS – 2026 – 17

1. Additional FFS Funding: If a provider demonstrates that eligible services and approved Medi-Cal billing will exceed $600,000 annually, how likely is it that additional FFS funding would be available, and are there any parameters around the amount of additional funding that could be approved?

Answer: We are willing to consider additional FFS funding. Applicants should include details of their anticipated FFS funding in their proposals, including information about type and quantity of services that would result in the overall FFS funding amount.

2. Proposal Funding Request: Would the County consider a proposal with a total annual funding request that exceeds the currently identified $1,050,000 combined annual funding level, if the additional request is supported by projected service delivery and Medi-Cal FFS billing?

Answer: We are willing to consider proposals that exceed the $1,050,000 combined annual funding. Applicants should include details of their anticipated funding mix in their proposals, including information about type and quantity of service that would result in the overall funding amount.
