PROTECTING BIODIVERSITY

PREVENTING INVASIVE WEEDS

Aug. 31 - Sep. 3, 2026

Mayten, cotoneaster, fennel and
are fast-growing invasive plants,
which can spread quickly if left unmanaged.

Staff carefully place a small amount of
herbicide onto each plant.

Stopping the spread of these invasive species
helps to protect rare species like the Tiburon
Mariposa lily, and reduces fire risk.
